To Whom It May Concern:

The Certificate of Correction issued on July 26, 2011, issued in error, in that error(s) was made in identifying the patent number and/or keying text/corrections, i.e.:

The title page displaying the corrected number of claims in patent was not included in the issued cofc. The request to add claims 6-14 in the printed patent was approved, therefore the number of claims in the patent are now 14. A superseding cofc will be prepared to include the title page displaying the corrected number of claims.

Therefore, a certificate of correction will be issued to correct (supersede) the Certificate of Correction containing error(s), made during preparation of the Certificate of Correction, as noted above.

No further response is required, from applicants (attorney). However, errors discovered by attorney, other than as noted and described above, should be noted on a *copy* of the Certificate of Correction that was issued in error, accompanied by a signed transmittal letter and submitted directed to this Branch.
